BOUND OVER TO AWAIT AC-**EXAMINING TRIAL**

-By Clive Weed TWO MEN CHARGED

W. M. (Boston) Smith and M. J. McCandless, both of Waco, were bound over to await the action of the Magnolia Park, home of the Oilof Waco, were bound over Navarro county grand jury on charges of assault with intent to murder and violation of the prohibition laws at the conclusion of examining trials held before Judge Sam B. Jordan Wednesday morning.

The bonds had not been made early Tuesday afternoon and the two defendants were still in jail pending the arrival of bondsmen rom Waco. The two men were arrested

Tuesday afternoon in East Corsicana by Deputy Sheriff J. M. Westbrook and Ross Dickey, state Westbrook and Ross Dickey, state highway patrolman. The assault with intent to murder charges were filed as a result of the displant of the automobile of Lieut. W. D. Roberts and Private R. R. Rohatch, state highway patrol, by rifle fire during a chase of the high speed truck loaded with 42 cases of bonded whiskey and other liquors near Chambers creek on Highway 31 between Corsicana on Highway 31 between Corsicana and Powell. Testimony at the trial showed there were three file shots fired one penetrating the right front fender and tire of the oficers' car, and the others striking the radiator,

NAVARRO SCHOOLS TO TAKE DENTON PLACE

Mr. J. L. Burks, superintendent of the Navarro School, has accept-ed an appointment as principal of one of the ward schools in Den-

on.

Mr. Burks has been associated with the Navarro school for the past five years. He is well known and surrounding in this county and surrounding counties for his ability as a coach and for his efficiency as a school

man.

Mr. Burks has made an enviable record at Navarro. He joined this school faculty in 1929. At the close of the basketball season he was chosen as the best coach in the county. This was the first time a Navarro club had been placed in a tournament. During his four years' tenure as coach, the Navarro team won first place in the Y. M. C. A., Interscholastic League and Mildred tournaments, as well as a number of second and third places. Besides being a capable coach, Mr. Burks is a very efficient classroom teacher. He was successful in securing affiliation in his science work for the school. Mr. Burks was made superintendent of the school last year. In this capacity he has again proven his ability by administering an unusually successful school.

Mr. Burks is one of the coming leaders of his profession. The community regrets to lose him, but is happy to see him grow and advance in his work. Heartiest congratulations are given him and best wishes go with him to his new field of endeavor.

BEAUTY EQUIPMENT

Beauty Equipment and Ideas

Miss Forbes lists some new treatments, which, if you can afford them, will make you much prettier. She also suggests cheap treatments.

Perhaps the thought that summer days are coming and that you can so soon lie about in a bathing suit, or those enchanting shorts, with a large hanky tied over your chest, will make you want to do something about your figure. Most women, if they can, fashionably, cover themselves up so their figures downed, if they can, fashionably, cover themselves up so their figures downed the faults rather than to correct them. But think of that bathing suit and how much you want to look well in it! Therefore check over your beauty making equipment. Bathroom scales are really necessary, and you should weigh yourself at the same general conditions—preferably when you are just out of your bath. Regulate your diet accordingly to the scales. Do them each day, to limber and stretch your muscles, Gothrough your cosmitics, decide which kinds you use most, and which you need and which you merely bought because their boxes pleased you, and make a mental note not to make that mistake again. See if you have enough money to go to the Turkish bath places, occasionally some one gets rid of superfillous hait tweakens down and dies out. Occasionally some one gets rid of case in the tit weakens down and dies out. Occasionally some one gets rid of consperituous hait tweakens down and dies out. Occasionally some one gets rid of on your head, you may he able to do it for some time all you may be able to do it for some time alle you may be able to do it for some time before there sany great difference in the quality of your hair, but it will and therefore weakens to any great difference in the quality of your hair, but it will and therefore weakens of the any make it lifeless and brittle. The ammonia does no bleaching, and therefore weakens to effect the platinum shade.

If you can afford it fancier beautifying baths are to be had—one where you are coated with paraffin and wrapped up in waxed paper, as though you were a parcel. After a time the waxy stuff is taken from your skin and apparently pints of perspiration follow it. This is followed by massage. For those who can afford it, this should keep one young and beautiful. And there is dathermy, which gets everything acid or poisonous out of you, stirs your circulation and makes you feel young and beautiful.

Teach Parenthood NEW YORK, May 10.—(A)—A wholly morbid effort to prolong youth was charged against educators today by Dr. Howard W. Haggard of Yale University.

His generalization was a part of an address at a Mother's Day luncheon sponsored by the Maternity Center Association, an address in which he deplored what he called the "needless" deaths last year of 10,000 women in childbirth.

The failure of the schools to prepare children for parentage he called 'prudery to be paid for in a coin of suffering."

"Boys and girls are taught to read and write in order to vote for the men who make our laws," he said. "They are taught history and

ADJUSTMENT PROGRAM TO BRING PROFIT INSTEAD OF RUIN TO MANY

WASHINGTON, May 10.—(AP)—
The farm administration today faced the task of solving numerous, diversified problems in the formulation of any adjustment program which will bring profit; instead of the ruin owners of the country's 68,000,000 head of cattle and dairy cows say threatens

A score of practical cattlemen the ranges, feedlots and dairy barns, divided into small groups to study individually the various phases of the problem the administration has attempted to

Although department officials declined to comment, these beef and dairy producers assembled as an advisory committee, are known to hold conflicting views as to the best method of controlling production while decreasing the cattle population which has increased 10,000,000 in considerably less

than a decade. They were confident, however, that the conference which began yesterday, would produce some coordinated adjustment program to which the range cattle men, feeders, and dairymen would sub-

The problem, with over-production, loss of foreign markets and decreased consumption as three of its chief elements, has been complicated further by droughts in many of the great plains grazing afeas and inland valleys. This means a shortage of roughage and advanced prices of lot

Probable Third Party Senators.

Sen. Cutting

Sen. LaFollette

Under the sponsorship of Progressive Republican Senators who bolted the party and supported President Roosevelt in 1932, a third party movement within State lines is growing in the West. In the forthcoming campaigns for re-election, it is probable that Senators Hiram Johnson of California, Bronson Cutting of New Mexico and Robert LaFollette of Wisconsin, will run under a third party banner. Although Senator Johnson has the Roosevelt blessing he may be forced to get nominated as a Progressive Party candidate. Senator LaFollette's supporters insist he head a third party ticket in his State, although Young Bob is reported as being cool towards the proposal. In the neighboring State of Minnesota, Senator Henrik Shipstead, only Farm-Laborite in the Senate, is seeking re-election. The probability is that the new Wisconsin third party will also bear the Farm-Labor label.
